

FOH Covid-19 Prevention Procedures

Beginning of shift

- All Employees must wash their hands WITH WARM WATER & SOAP for 20 secs before they start any task or touch anything in the restaurant
- Masks must be worn at all times
- Any employee who has COVID symptoms or exhibits any signs of being ill will not be allowed to work
- Please no handshaking, fist bumps, hugs, or any other activity where you are touching another person.
- Employees coming to work will have a symptom screening & have their temperature checked
- Set up a spray bottle with new sanitizer & spray your work surfaces down.

During your shift

- Social distancing (separation of at least six feet between employees) will be observed whenever possible.
- Use contactless payment for guests
- sanitize your POS & station every 30-60 mins
- Be sure to wash your hands frequently and after receiving any food order or touching anything that has come from outside the restaurant. If you have to leave the restaurant for any reason while on break you must again wash your hands.
- Remember that using disposable gloves are not a substitute for frequent hand washing
- wash or sanitize your hands after handling money & clearing any dishes
- Avoid touching your eyes, face, or hair during your shift. If you do wash your hands.
- No eating is allowed during your working shift.

End of shift

- Sanitize your station surfaces including POS & EMV terminals (anything you touch during your shift - refer doors etc..)
- All employees must check in with a manager or person in charge before they leave for the day
